Dear Mr. Daniels:

Transmitted herewith for your review are a copy of a letter and maps previously submitted to the U.S. Forest Service. These maps present detailed site plan and engineering data for URADCO's Ransome Mining Project, Avalanchie No. 13 Mine. You should incorporate these maps into your agency's review of the Ransome Project.

We would be most appreciative of receiving written documentation of the status of your group's permit review of the Ransome Project. This information will help us finalize the plans for startup of the mining activities.

If you have any questions, please call or write. Your prompt attention to this matter will be appreciated.

Sincerely,

Bob Ward
